### **Explanation of Issue**

The city is working with a number of local citizens and resources and the City of Bingen to prepare a joint application to Washington Department of Transportation for a car share program. The program would provide electric vehicles to those in need in both White Salmon and Bingen. The local match requirement of \$20,000 is being provided by the Bonneville Foundation. The working group has been looking at five different locations for charging stations and electric vehicles. The cost estimate will include the costs for charging stations, electric cars and the cost for establishing electricity to the sites. The City of White Salmon may provide in-kind services related to trenching for the electrical utility at the site within White Salmon.

### **Recommendation of Staff/Committee**

Staff recommends authorizing the submittal of a joint grant application to Washington Department of Transportation for a car share program.
