

**CITY OF WHITE SALMON WASHINGTON
ORDINANCE NO. 2016-10-995**

**AN ORDINANCE AMENDING WSMC CH 17.48.075 REGARDING COMMERCIAL
DISTRICT DEVELOPMENT AND DESIGN STANDARDS, AND PROVIDING FOR
SEVERABILITY AND AN EFFECTIVE DATE**

WHEREAS, the White Salmon Planning Commission has met and discussed the current design standard requirements for commercial district development and recommends Council revise the code to remove the roof pitch requirement from the “Bavarian theme” era, clarify the requirements for the site drainage plan and to ensure consistency throughout the text; and

WHEREAS, the City feels that it is in its best interest to revise the text amendments to the code based on the Commission’s recommendation.

NOW, THEREFORE, the City of White Salmon do ordain as follows:

SECTION 1. WSMC Ch. 17.68.130 is hereby amended as follows:

Key: Deleted = ~~striketrough~~

Added = **bold underlined**

17.48.075 - Development and design standards.

- A. Property development standards—All new development shall conform to Chapter 17.81, Site and Building Plan Review, and to any and all architectural and design standards which may be adopted by the city.
- B. Roof standards/surfacing:
 - ~~1. All visible roof surfaces shall be constructed to a minimum pitch of 4.5/12 (four and one half inched of rise to twelve inches of horizontal run).~~
 - 1.2.** Finished roof material shall meet Class "C" roof standards. Dark and non-reflective roofing material shall be used for all visible roof surfaces.
- C. Roof standards/mechanical equipment and venting:
 - 1. All mechanical equipment located on roof surfaces such as, but not limited to, air conditioners, heat pumps, fans, ventilator shafts, duct work, or related devices or support work, shall be screened from view when possible and visible equipment shall be of a matte and/or non-reflective finish, unless reviewed and determined by the planning commission to be compatible with or a positive addition to the design and character of the commercial area. This restriction shall not apply to radio/television antennas or dishes (see Chapter 17.78).

2. All exposed metal flashing, roof jacks and plumbing vents shall be matte finishes/non-reflective.
- D. Drainage—All storm water concentrated by the structure and related impervious surfaces must be handled on site. Concentration of roof drainage shall not be shed by drip or overflow at points that cross pedestrian walkways or paths. A plan of the roof and surface drainage shall insure that pedestrian walkways and paths remain free from concentrated water shedding. Such plans shall be ~~an integral part of the site and building plans~~ **included in the proposed site drainage plan required for site and building plan review in Chapter 17.81.**
- E. Exterior walls/siding—Acceptable siding shall be of lap, plank, shingle, board and batten style. Siding with brushed, sanded or rough sawn texture may be permitted, **if approved by the planning commission.** Siding shall be finished in natural or earth-tone colors. Other colors or styles may be permitted if approved by the planning commission. All other composition materials shall be carefully reviewed for visual compatibility by the planning commission.
- F. Exterior walls/masonry—Masonry walls or walls with masonry veneer may be native or cultured stone or standard-sized brick of natural or earth-tone colors. Ceramic tile, manufactured concrete block or slabs may be permitted, but shall be subject to ~~detailed~~ review by the planning commission to insure use of earth-tone colors, matte finish, and compatible relationship to native materials.
- G. Exterior walls/metal—Metal walls, panels, partitions, facing or surfacing of any type is subject to ~~detailed~~ review by the planning commission and must be found to be compatibly designed and intentionally applied rather than relied on solely as a less expensive option. ~~Metal used on the exterior as finished siding must be demonstrated to have a high value visual quality or it will not be accepted.~~ Window panel fillers, exterior metal doors, door casings and windows shall be allowed.
- H. Windows and doors—All window and door frames shall be dark or earth-tone in color. Doors may be painted graphic colors as a part of the ten percent graphic color and signing limitation.
- I. Garbage and refuse areas—Building plans shall include provisions for the storage of garbage containers. Garbage containers shall be fully enclosed and covered. Disposal and storage of hazardous or toxic substances in garbage or refuse receptacles is strictly prohibited. On-site hazardous waste treatment and storage facilities shall conform to State Siting Criteria, RCW 70.105.210.
- J. Orientation of entry and display space—Entry and window display area shall be oriented toward the city street. Parking may and will often be provided behind and/or under the rear or side portion of a new commercial structure. In this case additional entry may be oriented toward the parking area but such additional entry area will be in addition to rather than in place of window display and entry area addressing the street and sidewalk.
- K. Utilities—All electrical, telephone, and other utilities shall be brought underground into the site and to the buildings.

- L. Loading—All loading must be on-site and no on-street loading is permitted. All truck loading aprons and other loading areas shall be paved with concrete or asphalt, be well-drained and of strength adequate for the truck traffic expected.
- M. Parking—All vehicles must be parked on the site unless otherwise provided for in accordance with [Chapter] 17.72. No on-street parking is permitted. Minimum parking stall width should be eight feet, six inches and length nineteen feet. All parking areas shall be paved with concrete or asphalt and shall conform to all regulations hereinafter in effect.
- N. Outside storage—All storage and refuse shall be visually screened by landscaping barriers, walls or coverings and be included in plans and specifications. Such barriers, walls or coverings shall not restrict access to emergency exits.
- O. Noxious effects:
 - 1. No vibration other than that caused by highway vehicles or trains shall be permitted which is discernible at the property line of the use concerned.
 - 2. Except for exterior lighting, operations producing heat or glare shall be conducted entirely within an enclosed building. Exterior lighting shall be directed away from adjacent properties.
 - 3. All materials, including wastes, shall be stored and all grounds shall be maintained in a manner which will not attract or aid the propagation of insects or rodents or create a hazard.

SECTION 2- SEVERABILITY: If any section, sentence, or phrase of this Chapter is held to be invalid or unconstitutional by a court of competent jurisdiction, such invalidity or unconstitutionality shall not affect the validity or constitutionality of any other section, sentence or phrase of this Chapter.

SECTION 3 - EFFECTIVE DATE. This ordinance shall become effective following passage and publication as provided by law.

PASSED in regular session this 16th day of November, 2016.

 David Poucher, Mayor
Jason Saburin

 Leana Johnson, Clerk/Treasurer

APPROVED AS TO FORM:

 Kenneth B. Woodrich, City Attorney
