## City of White Salmon Legislative Policy/Procedure

<b>Title:</b> Electronic Signature Policy	<b>Page Number:</b> 1
<b>Department:</b> Clerk/Finance Department	<b>Effective Date:</b>
<b>Revised Date:</b> N/A	<b>Revised by:</b> N/A

### Purpose

To establish an electronic signature policy for the City developed to:

- Promote efficiency in order to conserve public resources;
- Begin transition to Electronic Records in compliance with the Resolution 2021-03-517 Declaring a Global Climate Crisis;
- Establish guidelines for the use of electronic signatures for certain City transactions;
- Provide reasonable assurance of the integrity, authenticity, and nonrepudiation of electronic documents when electronic signatures are used by the City; and
- Determine the scope of the City's use of the current electronic signature provider DocuSign as the approved method for affixing an electronic signature to an electronic record.

These policies will apply to any future replacement of the DocuSign platform. Reducing the City's reliance on paper-based transactions will further improve information security and sharing, allow faster approval of and access to documents, and reduce costs and environmental impact. Streamlining the processes described herein that require wet signatures and replacing them with electronic signatures, when practicable, is consistent with the intent of Washington State law to promote electronic transactions and remove barriers that might prevent the use of electronic transactions by governmental entities.
