

## CITY OF WHITE SALMON

### GENERAL APPLICATION

---

#### GENERAL APPLICATION INSTRUCTIONS

---

A general application is a method by which the city may evaluate the compatibility of a proposed use within a designated zone. This process is intended to review situations where uniform zoning application may unduly burden one property more than other properties in the area. This application does not permit the property to be used in a manner other than that provided in the White Salmon Municipal Ordinances.

Please complete all portions of the attached application. You may provide any additional information you desire to support your application, i.e., pictures, maps, letters, etc. The appropriate City body will review your application. Suppose the application is deemed to be reviewed by the Planning Commission or City Council. In that case, it will be scheduled within three to five weeks after the submittal of the completed application.
