Question: Quick clarification on page count, are 1 page resume's in the appendix included in the page count?

Answer: No, the one-page resumes are an exhibit and are not included in the 20-page count. The 20-page count should be used to tell the story about how your firm and its team's qualifications can best meet the information noted throughout the RFQ, in particular the Scope of Work and Deliverables in Section 2.
